TOP 3 Health & Safety Orders *written by Officers*

Obligation to use Fall Protection
OHS 11.2(1)(a)

Unless elsewhere provided for in this Regulation, an employer must ensure that a fall protection system is used when work is being done at a place from which a fall of 3 m (10 ft) or more may occur.

Enforcement
WCA 89(1)

If the Board has reasonable grounds for believing that a thing that is being used or that may be used by a worker:

(a) is not in safe operating condition, or

(b) does not comply with the OHS provisions or the regulations,

the Board may order that the thing is not to be used until the order is cancelled by the Board.

Guardrail Locations
OHS4.55(a)

An area accessible to workers must have guards or guardrails installed if a raised floor, open-sided floor, mezzanine, gallery, balcony, work platform, ramp, walkway, or runway is 122 cm (4 ft) or more above the adjacent floor or grade level.
