DISCUSS WITH CREWS

mm/dd/yyyy

DRIVING IN A WORK ZONE

Topic Overview

Driving into an active construction site makes you a potential hazard to others as an additional moving piece in the puzzle. Travel carefully and ensure you set an example by following all road safety rules.

Hazards to be aware of

- Not seeing workers, materials, equipment, or obstacles on the site.
- Others not expecting to encounter your vehicle.

Safety Tips

Before entering a building construction site

- Do a pre-trip walk-around to ensure your vehicle is clear of obstacles and try to back into the parking space to make it even safer when you drive out.
- Park in designated spots only.
- Wear your seatbelt.
- Do not operate electronic devices while operating a vehicle.
- Ensure ground crew wear high-visibility vests.
- Immediately report any near misses or incidents/injuries that have occurred.

Before entering a road construction site

- Slowly navigate any road thresholds.
- Activate your 4-way flashers.
- Wait for the traffic control person to acknowledge that it is safe to enter, then proceed when directed to the designated parking area.
- Make eye contact with all equipment operators if crossing a working area.
