Hazardous Materials
OHS20.112(2)

Before work begins on the demolition or salvage of machinery, equipment, a building or a structure, or the renovation of a building or structure, all employers responsible for that work, and the owner, must ensure that a qualified person inspects the machinery, equipment, building or structure and the worksite to identify the hazardous materials, if any.

Stop-Work Orders
WCA90(1)(a)

The Board, in accordance with subsection (2), may order that work at a workplace or any part of a workplace stop until the order to stop work is cancelled by the Board.

Respirators: Face Seal
OHS 8.39(2)(e)

A worker required to wear a respirator which requires an effective seal with the face for proper functioning must be clean shaven where the respirator seals with the face.
